

KENNO

Balpro[®] Protector

Revolutionizing fortification

KENNO

Balpro® Protector

**Travels with the troops
like a 20 ft container.**

**Easy to assemble and dismantle;
no special tools required.**

One system set provides 42 metres of camp wall.

Revolutionizing fortification

Genuinely multi-use, robust steel system => low life time cost.

Protection capability may be increased by filling with sand or gravel.

Multiple applications; ideal for airfield without sand filling.

Photo: Finnish Defence Forces

NEW: Guard tower, which can be erected in about 4 hours.

Balpro® Protector

Revolutionizing fortification

- **Fortification in hours instead of days.**
- **Fully multi-use; travels with the troops.**
- **Easy to build, flexible modular system**

Finnish patent granted, European patent pending
Balpro® is a registered trade mark of Kenno Tech.
